THE REDEFINITION OF PRE RIG TRUSS. NO JOKE.

THE MLT SERIES.
ENGINEERED IN GERMANY.

No big tour and no festival without Pre Rig Truss.
But also for smaller concerts, Pre Rig Truss is more and more used.
Our MLT Series offers you Pre Rig Truss at its best – engineered in Germany.
Here you can find the overview of our MLT Series.

CONTENT

MLT THREE
page 4–17

The famous MLT ONE and MLT TWO Pre Rig Trusses have received a new member to complete the MLT series: The MLT THREE. The most important features of the MLT THREE are: open at the bottom, extended telescopic legs, optional rail system.

The MLT THREE is fully compatible with the MLT TWO and MLT ONE.

MLT TWO
page 18–31

The MLT TWO contains a lot of benefits when it comes to fast and easy set up and dismantling. The key features of the MLT TWO are: rotatable forks, folding dolly, adjustable legs.

The MLT TWO is fully compatible with the MLT THREE and MLT ONE.

MLT ONE
page 32–41

The MLT ONE is the ideal transportation solution for high-quality lighting technology. Additional transport cases are no longer needed, and the cabling is directly suspended in the MLT ONE, which considerably reduces set-up and dismantling times. In addition, convenient stacking is possible to save space.

The MLT ONE is fully compatible with the MLT TWO and MLT THREE.

MLT ZERO
page 42–47

The MLT ZERO is the little sister of the MLT ONE. Stackable transportation, fast assembly and dismantling times as well as a good price-performance ratio are the impressive features of the MLT ZERO. This Pre Rig Truss is based on the cone connector system and thus guarantees quick and easy connection of the trusses.

MLT FRAME
page 48–55

The MLT FRAME is the optimal companion for touring and smaller concerts and a transportation solution for triangular and box trusses up with up to 40 cm width. Lighting can remain suspended and wired in the truss during transportation. The length of the MLT FRAME can be varied using different conitubes. The most important features of the MLT FRAME are: Compatible with triangular and box trusses, for truss lengths between 1–5 metres, height-adjustable dolly.

ACCESSORIES
page 56–60

Accessories like truss pins and r-clips, as well as accessories for transportation like wheels and truss protection rings.

MLT THREE

The famous MLT ONE and MLT TWO Pre Rig Trusses have received a new member to complete the MLT series: The MLT THREE.
The most important features of the new MLT THREE at a glance:

Bottom open

Extended telescopic legs

Optional rail system

The MLT THREE has no closed head frame and is open at the bottom. This makes it easier to mount moving lights or video modules in the truss.

Bottom open

The MLT THREE has no closed head frame and is open at the bottom. This makes it easier to mount moving lights or video modules in the truss.

Extended telescopic legs

The dolly of the MLT THREE has extended telescopic legs that allow you to mount complete video modules including the hanging frame in the truss and leave them in the truss during transportation.

Optional rail system

A double rail system is available as an option, which makes mounting the units in the truss even easier: the units can be suspended at 2 different levels. A lowering device is not required.

MLT THREE

Tube	48,3 x 4,5 mm

MLT THREE ACCESSORIES

RAIL SYSTEM

A rail system is optionally available for the MLT THREE, which makes mounting the units in the truss even easier. The rail system is a double rail system. This means that the units can be hung on 2 different levels and no lowering device is required. The rail system also allows you to mount the lighting at the transitions between two trusses and to create seamless transitions between the video modules in the trusses.

Art. No.: 11499192000

RUNNER FOR RAIL SYSTEM

Runner to be hung in the double rail system.

Art. No.: 1149918

PROTECTION COVER

The protection cover for the MLT THREE Pre Rig Truss offers the sensitive lighting technology protection from rain and sun during set-up and dismantling and, if required, also during the show.
By pulling the protection cover under the truss instead of over the MLT THREE, the moving lights with unblocked PAN-TILT are secured during transport. Rolled up, the protection cover remains on the truss during the show and is virtually invisible.

Art. No.: 114350MLT253

LOWERING SET

The lowering set is used to mount smaller equipment a little lower in the MLT THREE Pre Rig Truss. The lowering set is attached below the central tube in the truss. It is adjustable in 4 different heights and can be adapted accordingly to the respective size of the lamp.

Art. No.	Lowering Set/Length
114350MLT2612	1200 mm
114350MLT2616	1600 mm
114350MLT2624	2400 mm
114350MLT2630	3000 mm
114350MLT2632	3200 mm

MLT THREE ACCESSORIES

LOWERING T-BAR

The Lowering T-Bar is used to mount smaller devices a little lower in the MLT THREE.
The Lowering T-Bar is attached below the central main tube. It is steplessly adjustable up to 100 mm height and adapts to the respective size of the lamp.

Art. No.: 114350MLT2601

DISTANCE HOLDER

It serves as both a distance holder and a stacking aid between the MLT THREE dolly and the MLT THREE truss, creating a 150 mm gap between the top of the Pre Rig Truss and the bottom of the dolly. The distance holder is black powder coated.
One set consists of 2 pieces.

Art. No.: 114350MLT2DH

RIGGING FRAME

The rigging frame is for vertical use of the MLT THREE Pre Rig Truss.
It is made of steel and comes incl. bolt set and 3.25 t shackle;
WLL 1000 kg.

Art. No.: 172350MLT10003

DOLLY ATTACHMENT FOR VERTICAL CURVED USE

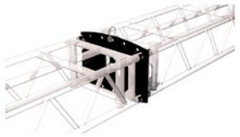
Aluminium dolly attachment for vertical curved use.

Art. No.: 114350MLT271

GIZMO LOAD BALANCER – WLL 1000 KG

Black powder coated steel Gizmo which can also be used as a load balancer; WLL 1000 kg. The Gizmo has one side with male forks, the other side with female forks as connection between two MLTs.

Art. No.: 172350MLT10001



GIZMO – WLL 500 KG

Black powder-coated steel Gizmo; WLL 500 kg.

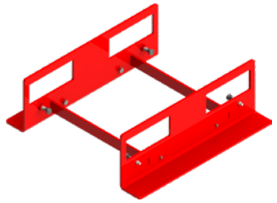
Art. No.: 172350MLT05002

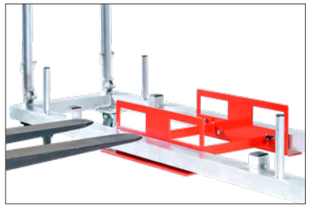
MLT THREE ACCESSORIES

FORKLIFT ADAPTER

The steel adapter protects truss, cable and other technology during transportation with a forklift truck.

Art. No.: 114350MLT2FL

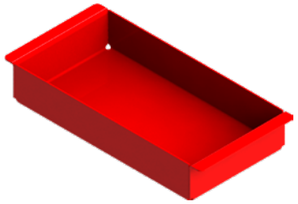


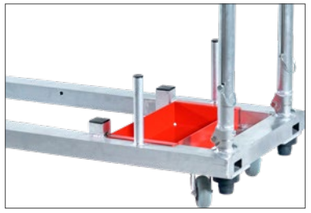


ACCESSORIES BOX

Suitable for all MLT TWO dollies.
Ideal for storing the bolt, clips, r-clips, cables and other accessories.
The box can simply be placed into the dolly.

Art. No.: 114350MLT2AB





STEEL FORK FEMALE

incl. lock ring

Art. No.: 114350MLT201

STEEL FORK MALE

incl. lock ring

Art. No.: 114350MLT202

MOUNTING TOOL FOR FEMALE

for screwing in the rotatable forks

Art. No.: 114350MLT251

MOUNTING TOOL FOR MALE

for screwing in the rotatable forks

Art. No.: 114350MLT252

CURVING TOOL

for adjustig the screw forks from 10 to 70 mm

Art. No.: 114350MLT2TOOL1

FIXING TOOL

for locking the screw forks

Art. No.: 114350MLT2TOOL2

SPACER 100 MM

suitable for forming circles

Art. No.: 114350MLT2SP100

SPACER 200 MM

suitable for forming circles

Art. No.: 114350MLT2SP200

SPACER 300 MM

suitable for forming circles

Art. No.: 114350MLT2SP300

SPACER 400 MM

suitable for forming circles

Art. No.: 114350MLT2SP400

Mount lighting equipment at the transitions between two trusses.

Create seamless transitions between the video modules in the trusses.

MLT TWO

The MLT TWO contains a lot of benefits when it comes to fast and easy set up and dismantling. The features of the MLT TWO are as follows:

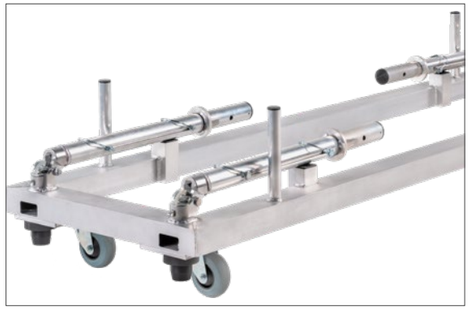
- **Rotatable forks**
- **Adjustable legs**
- **Folding dolly**

Rotatable forks

Create curved truss systems without extra components.

Adjustable legs

Use the telescopic feature to minimize dismantling time.



Folding dolly

Fold and stack dollies to use shipping space efficiently.

MLT TWO

Tube	48,3 x 4,5 mm
Bracing	30 x 3 mm
Material	Aluminium EN AW 6082 T6
Color	RAL 9005
Height	1030 mm (incl. dolly)

MLT TWO ACCESSORIES

PROTECTION COVER

The protection cover for the MLT TWO Pre Rig Truss offers the sensitive lighting technology protection from rain and sun during set-up and dismantling and, if required, also during the show. By pulling the protection cover under the truss instead of over the MLT TWO, the moving lights with unblocked PAN-TILT are secured during transport. Rolled up, the protection cover remains on the truss during the show and is virtually invisible.

Art. No.: 114350MLT253

LOWERING SET

The lowering set is used to mount smaller equipment a little lower in the MLT TWO Pre Rig Truss without interfering with the lower tubes of the MLT TWO. The lowering set is attached below the central tube in the truss. It is adjustable in 4 different heights and can be adapted accordingly to the respective size of the lamp.

Art. No.	Lowering Set/Length
114350MLT2612	1200 mm
114350MLT2616	1600 mm
114350MLT2624	2400 mm
114350MLT2630	3000 mm
114350MLT2632	3200 mm

LOWERING T-BAR

The Lowering T-Bar is used to mount smaller devices a little lower in the MLT TWO, to avoid interfering of the lower main tubes of the MLT TWO.
The Lowering T-Bar is attached below the central main tube. It is steplessly adjustable up to 100 mm height and adapts to the respective size of the lamp.

Art. No.: 114350MLT2601

DISTANCE HOLDER

It serves as both a distance holder and a stacking aid between the MLT TWO dolly and the MLT TWO truss, creating a 150mm gap between the top of the Pre Rig Truss and the bottom of the dolly. The distance holder is black powder coated.
One set consists of 2 pieces.

Art. No.: 114350MLT2DH

RIGGING FRAME

The rigging frame is for vertical use of the MLT TWO Pre Rig Truss. It is made of steel and comes incl. bolt set and 3.25 t shackle; WLL 1000 kg.

Art. No.: 172350MLT10003

DOLLY ATTACHMENT FOR VERTICAL CURVED USE

Aluminium dolly attachment for vertical curved use.

Art. No.: 114350MLT271

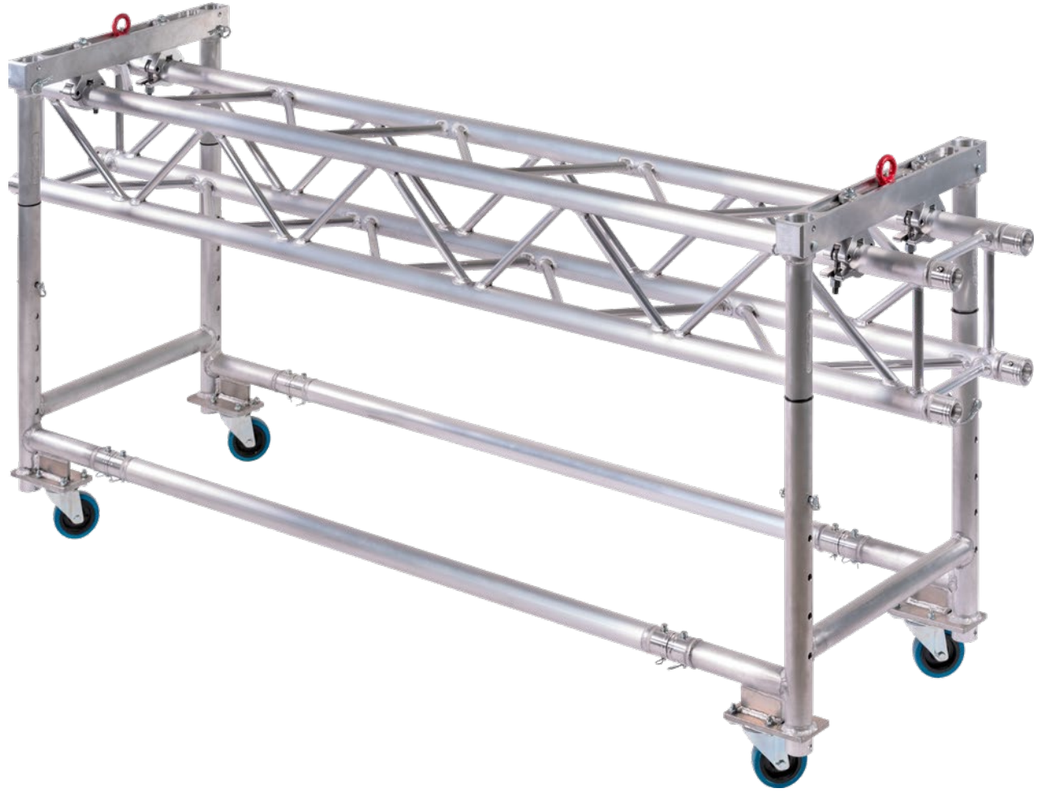
MLT FRAME



The MLT FRAME is the optimal companion for touring and smaller concerts and a transportation solution for triangular and box trusses up with up to 40 cm width. Lighting can remain suspended and wired in the truss during transportation. The length of the MLT FRAME can be varied using different conitubes.

The most important features of the MLT FRAME at a glance:

- **Compatible with triangular and box trusses**
- **Truss lengths of 1–5 metres**
- **Height adjustable dolly**

MLT FRAME

Tube	48 x 3 mm
Material	Aluminium EN AW 6082 T6
Color	aluminium
Height (adjustable frame)	915 – 1320 mm

IMPORTANT FACTS

- Fits for all truss lengths between 1,0 m and 5,0 m
- Trusses up to 40 cm width fit in
- Integrated truss-adapter up to 750 kg according to DGUV-17
- Depending on frame height (telescopic) and inside height of the truck, up to 3 MLT FRAMES can be stacked

YOUR BENEFIT

- Time saving because fixture can be prepared before the show
- Cost-saving because it is compatible with all 3-point and 4-point trusses with max. 40 cm width
- Suitable for transportation (incl. fixture) without using cases

NOTE

Permissible loadings depend on the truss used in each case.

MLT FRAME HEIGHT ADJUSTABLE

The MLT FRAME is a height adjustable dolly system with gizmo or square aluminium.

MLT FRAME H40

incl. 2 x square aluminium tubes 60 x 60 mm

Art. No.: 157H40

MLT FRAME H41

incl. 1 x square aluminium tube 60 x 60 mm
incl. 1 x gizmo

Art. No.: 157H41

MLT FRAME H42

incl. 2 x gizmo

Art. No.: 157H42

Height adjustable from 915 up to 1320 mm.

Delivery without truss and conitubes.

ACCESSORIES & SPARE PARTS

The length is variable by the chosen conical tubes.
You choose the length of the conical tube 1000 mm less than the length of the truss you want to hang in the MLT FRAME.

suitable for forming circles

Art. No.: 114350MLT2SP200

SPACER 300 MM
for MLT THREE and MLT TWO
suitable for forming circles

Art. No.: 114350MLT2SP300

SPACER 400 MM
for MLT THREE and MLT TWO
suitable for forming circles

Art. No.: 114350MLT2SP400

SPACER 105 MM
for MLT ZERO; male

Art. No.: 11199105M

SPACER 210 MM
for MLT ZERO; male

Art. No.: 11199210M

SPACER 125-170 MM
for MLT ZERO
adjustable; male

Art. No.: 11199ADJ

CONNECTORS

CONICAL CONNECTOR
for MLT ZERO

Art. No.: 1119912

TRUSSPIN M8
for MLT ZERO

Art. No.: 1119913S

TRUSSPIN HACKA
for MLT THREE, MLT TWO, MLT ONE

Art. No.: 1139919

COTTER PIN 2MM SINGLE
for MLT THREE, MLT TWO, MLT ONE

Art. No.: 1119925

TRUSSPIN STANDARD
for MLT ZERO

Art. No.: 1119913

TRUSSPIN STANDARD
for MLT THREE, MLT TWO, MLT ONE

Art. No.: 1139913

LINCHPIN
for MLT THREE, MLT TWO, MLT ONE, MLT FRAME

Art. No.: HOF30021

COTTER PIN 3MM DOUBLE
for MLT THREE, MLT TWO, MLT ONE

Art. No.: 1119927

HOFKON 290-1 TRUSS
for MLT FRAME
